

Juris Apocalypse Now! Law in End Times

**2019 Law, Literature and the Humanities
Association of Australasia's conference**

**School of Law and Justice
Southern Cross University, Gold Coast Campus**

2-4 December 2019

The conference will explore the intersection of legality, temporality and eschatology, the normatively uncertain and yet inherently creative space originated by the conflicting encounter between the orderly desire of law and the entropic tendency of apocalyptic narratives, with both forces cast against the backdrop of the ever-deferred notion of time itself.
